ASSET MANAGERS, AUCTIONEERS, DISPOSAL AGENTS, MEDICAL ENGINEERS, HAULAGE, PRIVATE TREATY SALES, SITE CLEARANCES.
HILDITCH GROUP

The Hilditch Group is one of the UK’s leading specialists in the management, auction, recycling and disposal of all types of surplus equipment, plant and machinery. We operate in three key markets:

- MEDICAL EQUIPMENT
- INDUSTRIAL PLANT AND MACHINERY
- CATERING AND HOSPITALITY EQUIPMENT

Established for over 20 years, Hilditch made its name in the sale of medical equipment, on behalf of high-profile UK clients, to buyers from around the world. We aim to exceed the expectations of both buyers and sellers.

From this highly technical and specialist field, we have expanded successfully into the world of industry and hospitality and now provide a flexible range of services for demanding clients across a wide spectrum of commerce.
The Hilditch Group medical division was established in 1990 and is now the clear market leader in its field. Over 90% of NHS Hospital Trusts in the UK use Hilditch for the sale or disposal of their unwanted medical equipment. We have developed this market by providing a highly efficient and professional service, which maximises the potential returns for our clients.
Medical Equipment
NHS HOSPITALS, PRIVATE HEALTH SECTOR AND FINANCE HOUSES

Hilditch help organisations to identify redundant equipment and then sell it in the most appropriate way to maximise returns, whether by auction, private treaty or online. We dispose of unsaleable items safely and securely and can provide a comprehensive site clearance programme.

The auctions can take place on our client’s site, at our own premises, or via our sophisticated online auctions. We were the first company in the UK to hold dedicated medical equipment auctions.

We sell everything from defibrillators to MRI scanners and our service is supported by our in-house Medical Electronics Department who, in addition to testing equipment for clients, can provide condition reports on a wide range of medical equipment for lease and finance houses.

Asset Management? Think Hilditch
Medical Engineering
PLANNED MAINTENANCE, SERVICING, REPAIRS

The Medical Engineering Department provides a comprehensive service to our auction clients, GP Practices, Veterinary Practices, Dentists and Private Health Groups. We offer Planned Preventative Maintenance Contracts to a large number of clients, visiting GP Practices and clinics over a wide area. Our highly qualified engineers use our own bespoke asset management system to keep accurate service records of your equipment, so you can be sure that all your equipment is manufacturer compliant, correctly calibrated and serviced at the recommended intervals. Our management systems are ISO:9001 compliant. Each month our engineers carry out hundreds of condition reports on a vast range of equipment, keeping our customers informed whether it is equipment to buy or end of lease reports.

Using the Hilditch Asset Management System (HAMS) we can provide your hospital or clinic a bespoke asset register including barcoding all your equipment. The system enables you to maintain accurate records of all your medical and non medical assets, informs you when they need servicing and even provides asset management information such as current asset value and projected replacement date.

Servicing Equipment? Think Hilditch
Our large workshops are equipped with the latest test equipment and our engineers are able to test and repair most types of medical equipment.
Diversity and flexibility are key to the Hilditch Group’s success. Whether an organisation is upgrading its plant, re-locating its offices or discarding redundant machinery, we can assess the project and ensure the most effective plan of action.

In addition to auctions, we organise sales by private treaty and direct purchasing. With our own fleet of HGV’s we can collect and deliver anything, anywhere. At Hilditch, we offer flexible solutions across a diverse range of activities.

Whatever the scale of the task, Hilditch have the experience and resources to deliver high quality, high value results. From industrial plant weighing several tonnes, to small scale, high technology electronic equipment, we can maximise prices at auction and minimise the cost of recycling, disposal and site clearance.

Asset Management? Think Hilditch
When it comes to auctions, Hilditch are at the pinnacle of the profession. But we are more than just auctioneers: we are a one-stop service, managing each project from start to finish and providing, via a single point of contact, all the expertise that hospitality clients require for the sale, refurbishment or clearance of their site.

From the entire contents of a hotel, staff canteen or public house, we can clear the premises, either holding an auction on site or removing everything to our large salerooms.

From kitchen ranges to tablecloths; from extraction systems to flatware – Hilditch inspect, value, catalogue and sell equipment, fixtures and fittings from all kinds of hospitality environments.
At the Hilditch Group, we believe that listening is an art and organising is a science. It is our mission to excel in both.

- ISO9001 and ISO14001 accreditation
- our own warehouses
- our own fleet of vehicles
- our own secure yard for storage
- our own electronics testing department
- our own dedicated team of professionals

The Hilditch Group have, over the years, increased overseas sales of equipment. Our excellent export record was recognised with The Queen’s Award for Innovation: International Trade; an award that not just recognises the value of exports but also the social responsibility of the company. In addition, we belong to the following organisations and are proud to adhere to their regulations and recommendations:

- National Association of Valuers and Auctioneers (NAVA)
- Constructionline
- The Road Haulage Association (RHA)
- Institute of Healthcare Engineering and Estate Management (IHEEM)
- Institute of Physics and Engineering in Medicine (IPEM)

The Hilditch Group established and supports the Amalthea Trust, a charity whose aims are to promote the training of medical engineers in developing countries.

Asset Management? Think Hilditch
“I have no hesitation in recommending Hilditch to my professional colleagues in other NHS Trusts.”

“I would like to record my appreciation of the professional and efficient manner in which you carried out the removal and sale of the items. A disposal exercise which could have become a nightmare, instead with your help was handled in a calm and calculated manner, with a minimum of fuss and trouble.”

“The time scales involved (with the clearance) were exceptionally tight and despite this lack of lead time, we are very pleased with the end results, both in terms of the value secured and the speed of clearance.”

“The site clearance and sale of surplus equipment went like clockwork and the income generated produced an excellent result, all of which are directly attributed to the professionalism and skill of everyone concerned. The whole team performed with ‘military’ precision, which won praise and respect of staff at all levels.”

“May I take this opportunity to thank you for undertaking such a large piece of work at short notice, and for conducting it in such a professional and good humoured way!”
